

G4S International Logistics & Sequel Logistics extend their strategic alliance in the Diamond & Jewellery Segment to Belgium and US

Press Release: 01 April, 2015, London, England.

G4S International Logistics (G4Si), as one of the world's foremost provider of insured and secured shipping solutions, and Sequel Logistics (Sequel), the leading secured solutions provider with the largest network in India, are extending their alliance in the Diamond & Jewellery (D&J) segment from India to now also include Belgium and US.

G4Si and Sequel will consolidate their strengths in this unique alliance to deliver a superior logistics solution for high value shipments around the world.

Speaking on the alliance, Mr. John Nelson, Managing Director, G4S International Logistics said, *"G4Si is focused on providing a seamless high quality service and risk management through its unique insurance cover to all our customers around the world. When we formed this alliance, our objective was to ensure that our customers experience a superior secure service in a stronger network supported by data integration and information. Our alliance with Sequel started from the year 2013 in India, and we are eager to expand this combined excellence now to other countries – US and Belgium."*

Sequel is the leading secure logistics service provider in India, with sophisticated technology and state of the art infrastructure. A natural extension of our alliance in India is to expand to US and Belgium. I would like to thank all our customers for their loyalty and support over the years, which has fuelled our commitment to continuously improve and augment our services."

Commenting on the strategic alliance, Mr Sharad Jobanputra, Chairman & Managing Director, Sequel Logistics said, *"Sequel believes in going the extra mile to give a customized and superior secure logistics solution, unique to each customer's specific needs. The coming together of the best of both worlds: the international network with risk management of G4Si and the operational excellence with superior Information Technology of Sequel will provide the customers in the US and Belgium, a secure seamless network and revolutionary service experience."*

About G4S International Logistics:

As the logistics arm of G4S (LON:GFS), the world's largest secure solutions provider, G4S International Logistics (G4Si), has offices in the major diamond and jewellery trading centres around the world, with a network in 110+ countries, transporting high-value merchandise to and from just about anywhere in the world. As an innovator with decades of experience in global and domestic secure transport, G4Si services minimise risk while maximising transport efficiencies. Banks, financial institutions, governments, mines, diamond cutters, jewellery manufacturers and retailers worldwide rely on G4Si to protect their commercial and reputational risk while optimising their business operations.

About Sequel Logistics, India:

Sequel Logistics is the largest secured logistics company in India, managing movements of valuable cargo in excess of USD 20 billion, annually. With 20 high-grade vaults, 40 secured hubs and 120 armoured trucks, Sequel services 210 towns and 5000 pin codes on a regular basis. Sequel provides full range of services from bullion imports, vaulting & delivery, D&J Armoured services, D&J small valuable shipments, D&J trade shows, customs clearance, returns and warehouse management services. Sequel launched the industry's first mobile app, enhancing internal efficiencies and customer experience. Sequel's customers are empowered to enquire, book & track shipments, and manage their invoices, directly from their mobile device, anytime, anywhere. As owner of critical consignments, we understand that real time information on shipment status and location is absolutely vital to our customers. Sequel's IT application provides this information in the most convenient format and on a truly real time basis.
